Community

Our **Community** is an innovation one-stop-shop where Manufacturing SMEs, Sustainability and Technology Providers and other key stakeholders can interact and access the latest knowledge.

We invite you to register and 1) address environmental and social challenges in your company, 2) connect with service providers, and 3) get the latest on events and opportunities as part of your sustainability journey.

Open Calls

Manufacturing SMEs that have completed the free Self-Assessment Tool, made an Action Plan with our experts and are paired with a greenSME **Accredited Sustainability Provider** can apply. See the list of accredited providers [here](#).

[Click to see more information.](#)

Goal: support SMEs in activities towards more sustainable performance (technological and /or social innovation) with funding short projects

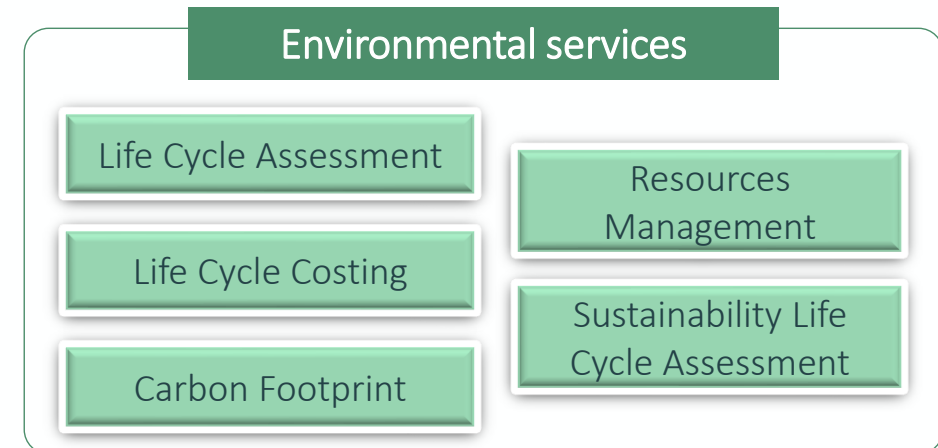

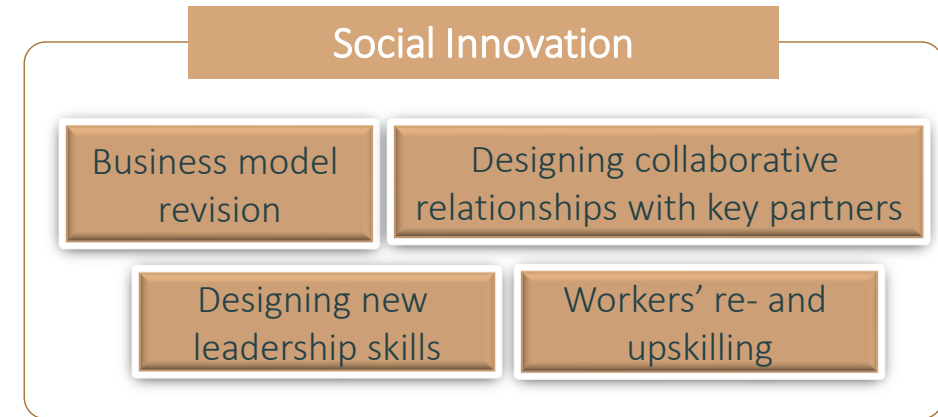

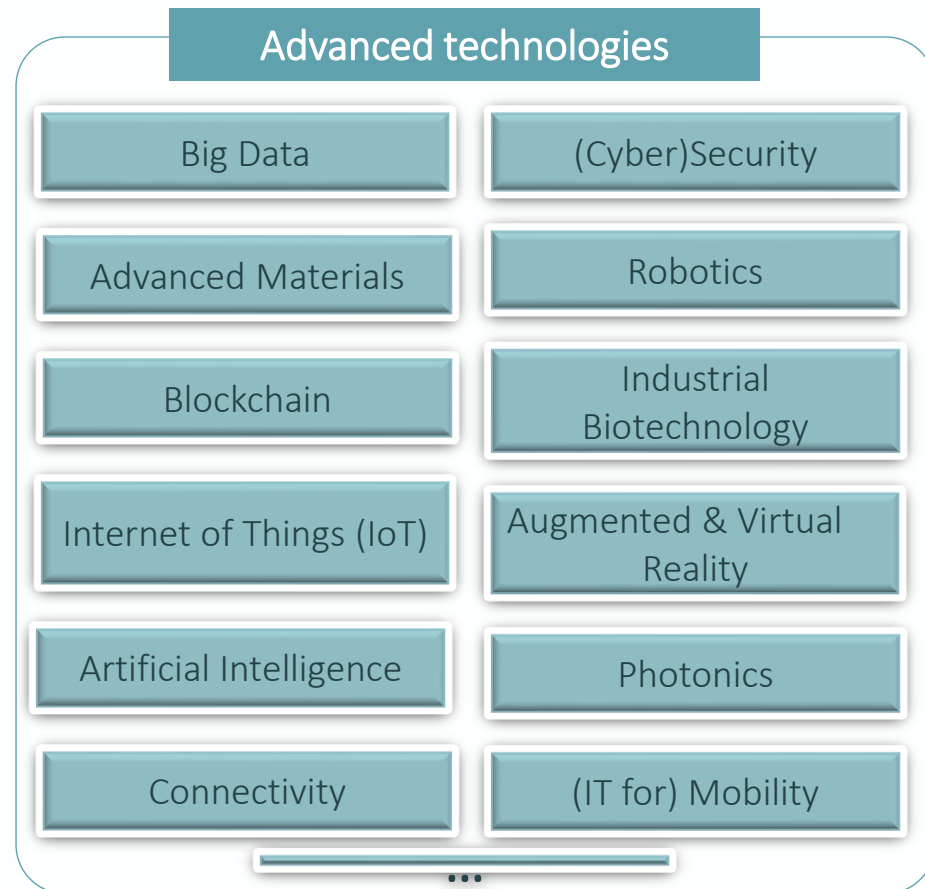

Objective 1.
Build a sustainable manufacturing SME innovation community: greenSME HUB

Objective 2.
Strengthen manufacturing SMEs capacity for AT adoption for sustainability

Objective 3.
Sustainability principles adoption by manufacturing SMEs

AT = Advanced technologies

Advanced Technologies and social/environmental services

Examples from the Open Call #1
